

# Peter Leong

Contact: See <http://freshcode.biz>

## KEY SKILLS / EXPERIENCE

- ✓ Analysis, design and development of web enabled applications
- ✓ Design and implementation of software development work-flow processes
- ✓ Experience applying modern, agile, sustainable software development practices
- continuous integration                      • iterative development                      • refactoring
- test driven development                      • pair programming                      • design patterns
  
- ✓ Well developed verbal and written communication skills in a variety of contexts such as:
  - requirements analysis and training with end users and clients
  - liaising with management staff at all levels
  - pair programming and design discussions
  - preparing systems documentation and learning guides
- ✓ Experience developing complex, scalable databases and routines
- ✓ Packaging of multi-platform desktop applications

## TECHNOLOGIES USED PROFESSIONALLY

Java / JEE	Generics, EJB, Servlet, JMS, JSP, JAAS, JNDI, JDBC, Groovy, Swing
Frameworks	Spring, Hibernate, Struts, Boost, JFreechart, JGoodies, Grails
Web	HTML, XML, CSS, Javascript, DWR (Ajax)
App Servers	Weblogic, Websphere, JBoss, Tomcat
Testing Tools	TestNG, JUnit, WebUnit, Canoo, Clover, Checkstyle, Jmeter, Sonar
Build Tools	Ant, Cruise Control, Maven, Hudson
Operating Sys	Apple Mac, Linux, Windows
Database	Hypersonic, H2, Oracle, SQL Server, MySql
Other	Intellij (IDE), CVS & SVN (Version Control), Tableaux (Deployment tool) XPlanner & Jira (Project management), Confluence (Wiki)
Methods	Dependency injection, Fine grained classes, Self commenting code, Mocking

## EDUCATION / FURTHER TRAINING

- Sun Certified Programmer for Java (100%) - 2004
- Two courses in Java Programming (91% avg.) - 2002  
British Columbia Institute of Technology
- Double bachelors degrees in Electronic Engineering & Computer Systems IT - 1997  
Queensland University of Technology
