KEY SKILLS / EXPERIENCE

- ✓ Analysis, design and development of web applications (full stack)
- ✓ Design and implementation of software development work-flow processes
- ✓ Experience applying modern, agile, sustainable software development practices
 - Functional programming
 - Iterative development
 - Reusable software
 - Continuous integration
 - Pair programming
 - Refactoring
 - Test driven development
 - User interface / experience design
 - Design patterns
- ✓ Well developed verbal and written communication skills in a variety of contexts such as:
 - requirements analysis and training with end users and clients
 - liaising with management staff at all levels
 - pair programming and design discussions
 - preparing systems documentation and learning guides
- ✓ Experience developing complex, scalable databases and routines
- ✓ Systems integration design and development

TECHNOLOGY USED PROFESSIONALLY

Java / JEE	Scala, Java, Servlet, JMS, JSP, JDBC, Swing
Frameworks	GWT, Squeryl, Spring, Hibernate, Struts, JFreechart, Grails
Web	HTML, XML, CSS, SVG, WebCaI, Javascript, DWR (Ajax), GWT-Bootstrap, Sencha GXT
App Servers	Tomcat, AWS Beanstalk, OpenShift, Jelastic, Weblogic, Websphere, JBoss
Testing Tools	Scala Check, Scala Lint Checker & Wart Remover, JUnit, WebUnit, Clover, Jmeter
Build Tools	Maven, Bamboo, Hudson / Jenkins, Ant, Cruise Control
Operating Sys	Linux, Windows, Apple Mac
Database	Postgresql, Derby, Hypersonic, H2, Oracle, SQL Server
Other	Intellij (IDE), GIT & SVN (Version Control), Jira (Project mgmt), Confluence (Wiki)
Methods	Dependency injection, Fine grained classes, Self commenting code, Mocking

EDUCATION / FURTHER TRAINING

- Self managed learning in Functional / Reactive programming and Scala 2016, 2017
- Sun Certified Programmer for Java (100%) - 2004
- Double bachelors degrees in Electronic Engineering & Computer Systems IT - 1997
Queensland University of Technology, Australia
